Okay, do you have a contact at the Rams that I could start with?

Thanks,

Aaron

Hi Aaron,

The Rams would be more appropriate. The City doesn't have that kind of funding, it would have to be something that was part of the Rams street closure permit so the City would essentially cover the additional services with City employees. That said I will bring up your concerns to the City Administrative Officer. So you are aware, even as a council office the City doesn't absorb the costs, we have to pay for street sweeping and additional garbage pick-ups.

Hi Bryce and Nora,

I'm sure you're both aware of the Rams agreeing to pay the City for security at games (article link below) which is great given some of the safety concerns we've been hearing about.

A portion of the article states, "the team would also pay for other city workers whose services are incurred at football games, such as firefighters and trash collectors." With the BID providing additional safe and clean services around Expo Park on game days and clean-up the day after, do you think the BID could also be reimbursed those costs incurred from either the Rams or the City?

Let me know your thoughts.

Thanks, and Nora thanks again for coming to the board meeting this week.
